Professional Summary

Senior Data Scientist and IT Professional with 11+ years of experience across Data Science, Machine Learning, Technical Writing, and Engineering. Over 4 years of hands-on experience delivering predictive analytics and ML solutions in the transportation and logistics domain for enterprise clients such as Blue Yonder. Strong expertise in Python, SQL, data visualization, and end-to-end model development, with proven experience working in fast-paced Bengaluru-based product and services organizations.

Technical Skills

- **Machine Learning:** Regression, Classification, Random Forest, XGBoost, Time Series
 - **Data Analysis:** EDA, Statistical Analysis, Feature Engineering
 - **Programming Languages:** Python, SQL
 - **Visualization Tools:** Tableau, Power BI, Matplotlib, Seaborn
 - **Platforms & Tools:** Git, Jupyter Notebook, Google Colab, KNIME
 - **Domains:** Transportation & Logistics, Retail, Telecom, Aviation
-

Professional Experience

Senior Tech Lead – Data Science

Persistent Systems, Bengaluru

Aug 2023 – Present (Blue Yonder)

- Led transit-time and ETA prediction initiatives for Blue Yonder TMS, improving logistics planning accuracy and customer satisfaction
- Built, evaluated, and deployed machine-learning models on large transportation datasets
- Worked closely with product managers, engineers, and business stakeholders to align analytics with business goals

- Integrated ML models into TM Configuration, TMIC, and Business Analytics modules
- Contributed to AI-powered documentation initiatives using LLM-based tools

Lead – Data Science & Technical Documentation

Brillio, Bengaluru

Jul 2022 – Jul 2023 (BluePlanet Enterprise (Cienna))

- Analyzed structured and unstructured data to generate actionable business insights
- Designed and delivered executive dashboards using Tableau and Power BI
- Performed data cleaning and validation to ensure high-quality analytics outputs

Lead – Technical Documentation

Citixsys, Noida

Feb 2022 – Jun 2022 (OneEnterprises)

- Developed dashboards and reports using Power BI and Tableau
- Performed data mining and trend analysis to support business decision-making

Senior Engineer – Technical Documentation

Mindtree, Bengaluru

Dec 2021 – Jan 2022 (Sabre)

- Documented automated seat-allocation systems for airline loyalty platforms
- Assessed data sources and analytics approaches for operational improvements

Senior Engineer – Avionics & Engineering Documentation

Sonovision (Ortec Group), Bengaluru

Aug 2014 – Nov 2021 (Airbus)

- Created engineering diagrams and service bulletins for Airbus aircraft programs
- Supported aircraft modification, compliance, and technical documentation activities
- Participated in on-site knowledge exchange at Airbus Toulouse, France

Key Data Science Projects

- **Transit Time Prediction (Blue Yonder TMS):** Built XGBoost models to improve ETA accuracy across transportation lanes
- **Fleet Failure Prediction (Zoom Car):** Reduced fleet breakdowns by 18% using Random Forest models

- **Customer Churn & CLV Prediction:** Improved retention campaign ROI by 20% using logistic regression and XGBoost
 - **Real-Time Twitter Sentiment Analysis:** Achieved 87% accuracy using Vader and LSTM
 - **Supply Chain Optimization (FMCG):** Optimized warehouse distribution using clustering and predictive modeling
-

Education

- **Master of Data Science (Global)** – Deakin University, Australia (2025)
 - **PG Program in Data Science & Business Analytics** – Great Learning / UT Austin (2023)
 - **MBA – Product & Marketing Management** – ISBM University (2019)
 - **Bachelor of Electrical Engineering** – IIAS, Jamshedpur (2011)
-

Certifications

- Generative AI with ChatGPT
 - Data Visualization & Storytelling
 - Git Version Control & Collaboration
 - Data Science & Business Analytics
-

Cover Letter

Application for Data Scientist / Senior Data Scientist

Dear Hiring Manager,

I am writing to apply for the Data Scientist position at your organization. With over eleven years of experience in the IT industry and more than four years of hands-on experience in Data Science and Machine Learning, I bring strong technical expertise along with a solid understanding of business-driven analytics.

Currently, I work as a Senior Tech Lead at Persistent Systems, Bengaluru, where I design and deliver predictive analytics solutions for Blue Yonder's transportation management platforms. My responsibilities include building machine-learning models, performing large-scale data analysis, and working closely with cross-functional teams to translate business requirements into scalable data solutions.

I hold a Master's degree in Data Science from Deakin University and have practical expertise in Python, SQL, Tableau, Power BI, and modern ML techniques. Having worked

extensively in Bengaluru's IT ecosystem, I am comfortable operating in agile, fast-paced environments and collaborating with diverse teams.

I am keen to leverage my experience to contribute to impactful data-driven initiatives within your organization. I would welcome the opportunity to discuss how my skills and experience align with your requirements.

Sincerely,

Rupesh Kumar Pandey
